SHARON R. KEENE
CLERK OF THE BOARD

RESOLUTION NO. 04-90

WHEREAS, the Navajo County Board of Supervisors meeting in Regular Session on January 2, 1990, did propose the following resolution:

WHEREAS, the Rare and Endangered Species Act as originally promulgated by the United States Congress had its merits; however, various misuses of the Act by special interest groups has caused it to become a threat to the very existence of both the private and public land sectors, and

WHEREAS, all parties concerned concur that the rare and endangered species must be preserved for future generations, however, this preservation must be accomplished in such a fashion to ensure and protect the rights of those parties that are entitled to the use of both private and public lands.

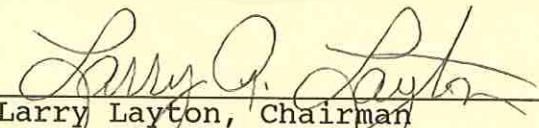

THEREFORE, BE IT RESOLVED, establish a National Wildlife Fund with Government support that would underwrite a community affected by either a rare or endangered species to raise that species in a controlled environment and assist in the repopulating of the species in a designated habitat, and

THEREFORE, BE IT FURTHER RESOLVED, if funding were limited to the actual area of concern, i.e., the actual communities affected, rather than an artificial environ, the community would not suffer the adverse economic conditions imposed by the present policies, and

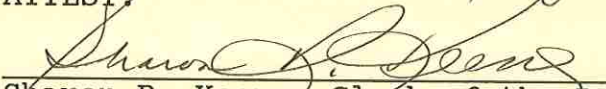

THEREFORE, BE IT FURTHER RESOLVED, these policies would in no way include rare or endangered species that could be harmful to man.

DONE, at Holbrook, Arizona, this 2nd day of January, 1990.
